

SILICONE

COATED HOSE COVER

IDEAL FOR EXHAUSTS, FUEL LINES AND ELECTRICAL CABLES

Fast, economical and effective
installation - slips on like a sock.

Best for tight-fit areas.

The internal fibreglass can withstand constant
temperatures up to **530°C**

The external silicone layer can withstand;

- A splash of 1650°C molten metal
- Constant temperatures up to 260°C
- Not for putting on turbo applications
